Beginnings

*My life is a new beginning
I've set my goals very high
My arms will reach up and
Grasp those golden dreams
And make them come alive
Yesterday is a memory.
Today is what I live for
For my life is just beginning
Success shall come my way
For I am one
To climb the highest mountain
And turn these dreams into reality
These new beginnings
Are the start of my life.*

DEDICATION TO JEREEANNE BOWMAN

Jereanne Bowman High School was founded in September 1969 by a very special woman.

Jereanne Bowman was a graduate of San Fernando High School, and went on from there to the University of Southern California. She has lived in California all her life, moving to Newhall in 1920.

Mrs. Bowman was very concerned with the young children and teenagers in our community. She took special interest in students who seemed to have problems fitting into a regular high school. Her father, Judge McDugall, gave her encouragement to start a special school for those younger students who needed and wanted to finish high school.

Jereanne received her wish. A continuation high school was built and started. Because of her long and hard work, the Wm. S. Hart District School Board named the school after her, "JEREEANNE BOWMAN HIGH SCHOOL!"

As of October 31st, 1973, Bowman had only 66 students enrolled. Now, in the year 1981, there are 253 students. We've come along way. Mrs. Bowman worked hard to start Bowman, and we'll work hard to keep it!

Thank you, Jereanne, for your hard and devoted work, but mostly for your concern for the younger generation.

*In the beginning we were not sure,
of the frustration we would endure.
But the "VISIONS" we had were clear
of the book we would create this year.
And now the dream has come true,
this book from us to you.
Now look back and remember
the past,
The fun and the love that will last.*

Leadership . . . Dedication . . . Perseverance

I was unsure of what to expect as a principal of Bowman but loved the challenge it offered. The experience turned out to be richly rewarding, and the students and staff are primarily responsible for this.

Students do get a quality education at this school, but education does not always mean book-learning. Our goal is to offer each student the education that is appropriate to him or her, and to foster young adults who have learned to live well with each other as contributing members of our community.

I'm not sure what Bowman's future will be. Although I would like to see the school in more adequate facilities: I would hate to see it grow too large. Bowman's uniqueness, undoubtedly comes from the fact that we are small enough to work together closely; really like a family. This is too valuable a quality to lose.

Instructional Aides

These patient people have a special job at Bowman. They assist the teachers in implementing their lessons and assist the students in their work. Each is kept busy with a variety of tasks which range from typing, correcting student work, tabulating productive points, to solving algebra equations, making souffles and selecting subject matter for oil painting. Their willing and kind attitudes as well as their top notch abilities make them invaluable to all.

Our Bowman ASB worked hard to make this year enjoyable for everyone. We hosted two bake sales to raise funds for a Disneyland trip and to support our first yearbook. Other activities included our Halloween carnival, participation in the Frontier Days Parade, and Thanksgiving, and Christmas festivities.

Through our corresponding secretary we published weekly articles which aided in improving Bowman's image.

We are the founders of the new-born "beginnings." Our thoughts of a yearbook at Bowman High are not just "Visions" to us anymore. Because of the close cooperation of staff and students we have been able to produce this our first yearbook. By dealing with the pressures of deadlines, we have all matured, each in his own way. All of the problems we encountered and dealt with will prove beneficial to us in the future that awaits us. Without the dedication, determination, and incentive of Mrs. Debbie Hild, this yearbook would not have been possible.

We hope that our successors will continue to uphold the tradition of the Bowman Bulldog pride and even to better the VISIONS we have started.

Bowman Takes A First

Many students worked long hours to make six bulldogs. The end results were great! Bowman took first place in the "Senior Open Floats" Category of the Frontier Days Parade.

Thanks go to Fume's & Debbie's third period classes and Rich Morales for the use of his truck and driving abilities.

- 1) L to R Spike — Teresa Kennedy, Fido — Tammy Eason, Butch — Sally Bobo, Killer — Cindy Mullins, Toro — Brenda Voyles, Leonard — Leonard Lund.
- 2) Our winning float.
- 3) Brenda Voyle, a proud bulldog, and our first place trophy.
- 4) Jody Liss — Monteleone leading Cindy Mullins to greet the crowd.
- 5) Leonard Lund preparing for the parade.

Our Halloween Activity Day was something to remember! It's a tradition at Bowman that teachers and students dress up for this occasion.

Some students chose to carve pumpkins, listen to music, get their faces painted, or watch the movie "Halloween." Others kept busy getting their fortunes told by Teresa Kennedy, our gypsy, and munching on Halloween goodies.

The day ended with a costume judging on our basketball court.

With winners:

1. Mike McCarley
2. Teresa Kennedy
3. Dixie Darlin
4. Karen Hency & Reneé

Simon;

Honorable Mention: Dediere Devine

- 1) Halloween cat "cuts up" for pumpkin carving contest.
- 2) Many get "Witchy" after being stuck in the office too long.
- 3) Gypsy, Teresa Kennedy, smiles over Bowman's future.
- 4) Dean adds the final touches to Karla's face.
- 5) "Stewing Tomato" (Fumey) gets salute for her costume.

Our Christmas Party

December put us in the Christmas spirit. Students went to Tropicana Nursery to choose and cut a tree. This was later decorated by donated or hand-made ornaments.

The staff members made all kinds of delicious food which the whole school enjoyed during the 4th period Christmas Party.

Arriving by Oldsmobile, our trusted Santa Claus listened to the Christmas gift wants from all the good boys and girls. He also handed out candy canes to everyone.

It was a great way to begin our Christmas holiday!

DEPARTMENTS

Individualized Math Program

IMP means Individualized Math Program. It can include any area of math a student wishes to study, but most students work on those areas needed for the District competency test. This test must be passed in order to receive a diploma. The areas covered on this test include whole numbers, decimal fractions, common fractions, percent, perimeter and area, the metric system, graphs, and applications in these areas.

Usually, there are some students taking one of the algebra courses or the geometry course. One special treat this year has been the use of an Apple Plus computer from October through December. Students had the opportunity to play games and to learn a little bit about programming this computer. Another project is the scale model building of the framing for a two bedroom house.

Looking Into Science

3

Science classes are completely individualized. Students select the areas in which they wish to work and Bob then describes the amount of credits you can earn for specific books, projects and packets. Some of the areas students choose are meteorology, rocketry, biology and dissection, gardening, and plant and animal identification.

Two new acquisitions in the department this year are weather forecasting apparatus and a stereo microscope.

- 1) Diane Fraser displays her pet snake.
- 2) Weatherman Vince Cellini checks the instrument readings.
- 3) Gary DeVoe dissects a frog while Craig Hezel watches.
- 4) Rodney Seity scopes microscopic world.

ENGLISH

▲1

Students of English this year continued to acquire skills in the reading and writing competencies established by the District. They became familiar with new ideas from the Bay Area Writing Project and from the Southland Council of Teachers of English. Personal, creative expression as well as students' own perspectives were stressed. Nearly 150 new books were enjoyed by English classes this year. In the spring, personal presentations about career choices for English students were offered. This was a busy year!

"Congratulations to all and especially to our hard-working graduates"

Shirley

- 1) Shirley helping David Watts.
- 2) Spelling lessons are a part of the English program — Shirley goes over correct spelling of CAT.
- 3) Karen Grosvenor and Brenda Voyles absorbed in their work.
- 4) Shirley reviews contract with Bill Dotson.

READING

Mondays in Reading the students do just that. They choose from many books or magazines and discuss what they've read with Jody when they are done. Wednesdays are activity days. Group games, films, mystery solving, and reading plays are all part of the wide range of things in which students may participate. Other days, students may work on their contracted assignments which are designed to help students improve their reading skills and pass the District competency exams.

3

Greg teaches American Studies, Government and many individualized programs such as Anthropology, International Relations, Contemporary American Problems and Sociology. Weekly discussions are held by the whole class about current issues. Some of the things they discussed this year were, the Draft, rent control, drugs, gun control, and the situation in Iran.

Simulation games are a popular part of the history classes with groups of four competing with each other for the two productive point prize.

4

- 1) Greg helping Robert with map.
- 2) Iylene catching up on current events.
- 3) Big Deal!
- 4) Bridgette and Greg exploring the globe.

ART

This year Bowman has added photography to its art program. A darkroom was constructed within the art room and is now equipped with the necessary supplies. Our photo program has made this year-book possible.

A drawing and painting class is also new this year. First semester students explored the uses of colored pencils, charcoal, oil pastels and pen and ink. Second semester students learned the basics of watercolor and oil painting.

Experiences in Art are the most popular classes. They offer instruction in glass projects, leather, silk-screening and ceramics as well as many other crafts.

Business and Home Economics

Fume teaches courses that range from Business Math and Record Keeping to Typing and Calculating Machines. The business students enjoyed new office desks and chairs this year.

Home Economics classes boast a new addition of On Your Own. It is basically a consumer economics class designed to give students the information and skills needed to make a successful start on living on their own.

Students learned basic cooking techniques in the Foods class which included using the microwave oven and food processor.

Child Development class explored the challenges of parenting and offered instruction in the growth of children from birth to preschool. Housing and Home Furnishings is a popular class that teaches students how to personalize their own living space. Principals of interior design as well as housing alternatives are discussed.

- 1) Teri gets ready for her typing test.
- 2) Fumey makes our water even wetter.
- 3) Ron sews his own shirt
- 4) Andrew and Scott enjoying their hom decorating class.
- 5) Lisa can't believe it is done already.

Drivers Education

This is a state mandated class. A minimum of 30 hours of instruction is required. The course is designed to give students the knowledge and skills that are essential in the safe operation of motor vehicles.

The requirements are to read 16 chapters from the textbook *Drive Right* and receive a grade of 100% on each worksheet that accompanies the chapters. A score of 70 or higher on the final exam is considered passing and successful students receive a certificate of completion which allows them to get a drivers permit.

Work Experience

Mike Ehrhart, as our Work Experience Coordinator, prepares students for the realities of the job market. His formal class is held one day each week. During this class, the students learn, among other things, how to fill out job applications, appropriate interview attitudes, and proper employee behavior.

Mike also teaches labor relations, consumer affairs and how to fill out tax returns.

Although his function is not to provide jobs for the students, he certainly does help in their search.

All students enrolled in the Work Experience program are working part-time, and have work permits and earn credit at school for this.

Working Students

Bowman students are workers. Many of our students have won high praise from the business community for their resourcefulness and sense of responsibility. They have pride in the variety of jobs they perform, the quality of work they do, and the greater self sufficiency their earnings give them. Their pride is justified and we join the community in praising their efforts.

- 4) Scott Burnham at Menco Mfg.
- 5) Bill Luby at California Broasted chicken.
- 6) Wayne Hofbauer at Henry Mayo Hospital.

Counseling

The counseling department strives to have each student realize and appreciate their own unique qualities and to be aware of their choices and responsibilities in life. George Suel heads the department and is in charge of scheduling and testing students as well as helping them with personal and academic problems.

Jody Liss-Monteleone is a counselor in training and assists George with most of his duties. She also participates in leading a rap group each week.

Joe Dayan is the intern psychologist for the District. He counsels students individually, runs a rap group, and teaches a psychology class on campus one day each week.

Carol Ruffel and Rob Shumer are Career Guidance Specialists. They assist students and teachers in finding relevant career and vocational information and materials. Some of the projects they make available are Exploratory Work Experience and Regional Occupational Programs.

Rap Groups

(row one) Joe Dayan, George Suel, Jody Liss-Monteleone, Liz Le Gault. (row two) Sue Johnson, Vicki Rubio, Karen Hency, Diane Fraser, Kelly Lindner, Dixie Darlin.

George, Jody, and Joe, run Rap Groups every Wednesday. There is no maximum number of students permitted but they try to keep the group to 15. The groups begin in the fall and new members who wish to join later must be accepted by all members of the existing group. Personal and family problems are discussed with no fear of the information going outside of the group. A great deal of trust is developed as all learn to explore themselves, sometimes through dream analysis. Every person emerges from the group with improved communication skills. This is the first year that a 12 hour rap has been held.

(row one) Reisha Horvat, Lynn Payne, Sandie Ketchbaw. (row two) Lori Taylor, Penny Franke, Bryan Cisneros, Lisa Johnson, David Watts, Joe Goodwin. (row 3) Joe Dayan, Jody Liss-Monteleone.

LIFE

As life continues to pass our way
we learn more about it every day
Like a flower our lives must someday bloom
then wilt and die, maybe soon.

For each person there's a goal to set
have you thought about what yours is yet?
Past the highest mountains you've got to climb
I'm sure you'll fall, but your goal you'll find.

You have a power to make your dreams come true
but that's something only you can do
Heavy drugs are just bad scenes
they ruin your life and destroy your dreams.

To find your dreams, you must search them out
I'm sure they're there, somewhere about
Before you find them, you've got to start
believing, they live in the body, and come from the heart.

Everyone's got a dream you see
that they'd like to see become reality
You've got the power to fulfill them all
in order to do this, you must break through the wall.

By the wall I mean you can no longer hide
don't keep things locked up inside
Deal with the problems of living each day
only then will you discover the way.

Then you can climb to the mountain top
and continue to climb, you'll never stop
Because you've succeeded in finding yourself,
in dealing with life, and everything else.

Teresa Kennedy

FRIENDSHIP

*A friendship is a pact
That you never offend
It began when we met
And it may never end.
And I gave you a part of my life
My mind will be with you
Though we're miles apart
Remembering Times
That made you a part of my heart
Our problems were only a trifle
I trust you to me . . .
And I ask for your trust
I'll never misuse it
Should the world become dust
For you've become one of my brothers
There's a fast growing bond
And I know I'm not wrong.*

Anonymous

VACANCY

*I do not love you anymore
My heart is now to let go
Although I still must make myself
Remember to forget*

*It seemed so real, so right,
Our love, so very nearly true
But faced with "almost"
I was forced to close my heart to you*

*I only hope before too long
The day will come for me
When I stop feeling faithless
And start feeling free*

Linda Howden

The mighty ocean growing wild
seeks his love, his long, lost child.
No sweeter girl did he ever see;
She, calmed the waves, and tamed the sea.

She rode his waters day and night
He guided her, gave her light
Each night she threw him a kiss,
His only child, his love, his miss.

There was a stranger, a very young man
Who came to see her, and took her hand
The ocean stormed and then he cried,
His violent rage had drowned his bride!

So now at night when the ocean cries,
and his ferocious waves churn the skies
Think of this story of him and his miss
then maybe he'll calm, if you throw him
a kiss.

Teresa Kennedy

*You are the one
I share my feelings with*

*The one who
through me
Touches the things
I touch
Through me
feels the sadness
and the gladness
I feel
because you care
and listen
and are my friend
I love you*

Linda Howden

TIME

*Time has gone
and left me here
without a word
I shed a tear*

*Time has gone
and left me alone
to face the world
to face the unknown*

*Time has gone
school days disappear
leaving me anxious
leaving me fear*

*Time has gone
old friends go, too
Friends that I love
will I like the new?*

*Time has gone
the child has left me
by facing the world
I will reach my destiny*

*Time has gone
yet time remains
and time will go on
making its change*

Teresa Kennedy

SPECIAL THINGS

*Special things from far away
Far beyond the dream
It was not so long ago
Out of reach they seemed
They're closer, I can see them
passing through
They cannot stay.
Take from it what is needed
What they cost is what you're
going to pay*

*Everything your life is for
Are the things you will endure
Everything your life is for
Are the things you are*

*Special things from far away
I've thought them, time to see
them now
Life is motion, not display
Even special things leave somehow*

*Everything your life is for
Are things you will endure
Everything your life is for
Are the very things you are*

*It's important at the time
You created in your mind
But your heart will come to see
What you want may not be
what you need*

Even special things leave somehow

"Last Wills and Testaments"

I Goran Loncar will my boots to Judy Webber.

I Mari Kurtz will to Bill Domino my infinite patience toward students who file everything from A to Z in the wrong place.

I Cathy Albers leave my spot in line at Grauman's Chinese Theater to any girl who is looking for a super neat guy!

I Lisa Bernier will to Bennye' Cisneros half the rent.

I Dixie Darlin will to Janet Richards my good looks and personality.

I Eric Bouck will my creative talents to Greg Herrick.

I Dave Voyles will my good luck to my sister Brenda.

I Bennye' Cisneros will to Gabe Mendez all my oil fields in Texas.

I Alan Stavropulos will all my gold, silver, and jewelry to my sister Christi.

I David Watts will all my money in the bank to Alan Stavropulos.

(I Will Purcell,) will all my spiked wristbands, chains, buttons, spiked gloves, punk albums, and clothes to John Smith.

I Gabe Mendez here do bequeath to Bennye' Cisneros my limo complete with chauffeur and body guards.

I George Suel leave to the student body of Bowman High School the responsibility for their own lives.

I Karen Hency will my ability to laugh at life and love, to my great friend Vickie, and my shoes to George.

I Tammy Eason will my heart to Richie Bradford, and my picture to Debbie.

I Fred Pelletier will to Lisa Bernie my diamond mines and to Bennye' Cisneros my gold mines, but I'm keeping the silver mines.

I Lois leave to those students planning to "stay forever" my job without compensation.

I Marri Davis will 100 gallons of gas to Lynn Payne.

I John Smith will my grades and good looks to future Bowman students.

I Bennye' Cisneros will to Lisa Bernier all of the cooking and half of the cleaning.

I Lisa Johnson will my mansion, my Z28, and my Afghan dogs to Ilyene Wood.

I Mike Myers will my life savings to Sandy Ketchbaw. (A whole 50¢).

I Janet Richards, hereby leave my normal taste in clothes to Teri Simon, and my boyfriend to "Renegade" Simon.

I Robert Loving will to Bennye' Cisneros a Mercedes Benz and a Rolls Royce to her friend Lisa.

What Will You Be Doing Ten Years From Now?

SUE JOHNSON: I'll probably be married and have a baby, and another one on the way, and a career as an Interior Decorator.

CATHY ALBERS: I'll be happily married with a couple of kids, a baby boy and a girl. I will also be rich.

VICKIE RUBIO: I'll be happily married with a couple of kids, and hopefully a bank teller job.

ROSA ORTIZ: I want to be a glamorous and famous actress! Look out Jane Fonda!

DIXIE DARLIN: I want to own my own hair salon and drive a Mercedes and own a beach condominium.

GABE MENDEZ: I'll have my own welding firm. I'll live in Tahoe in a two story cabin, and I'll be married and have four children. Two boys and two girls.

KEN REARDON: I'll be a business tycoon and live in Peru.

GORAN LONCAR: I'll be a Plumber.

LIL ANDERSON: I'll be a secretary and live in Canada. I'll be married and have two kids.

KRISSY BLACIC: I'll be in medical college and be married.

LYNN PAYNE: I'll have a job training horses and I'll be married and have one child.

TONY ROMAN: I will be a rock star, playing lead guitar for the Assassins.

STACEY LOVE: I'll be married with four kids and I will be a Veterinarian.

LISA BERNIER: I will be a big time Make-Up Artist and live in an estate with my family.

BENNYE' CISNEROS: I will be a professional singer in a group making lots of money and I will live in a very big house.

ALAN STAVROPOULOS: I will be a professional self-made millionaire.

DAVE VOYLES: I will be a professional in Electronics and have my own business.

LEONARD LUND: I will have retired my captainship of the Bowman High School underwater basket weaving team to become head coach of said sport . . .
